VOL. 9 No. 33 CHARLEROI, WASHINGTON CO., PA. SATURDAY, SEPTEMBER 19, 1908 One Cent

MAMMOTH DEED FILED IN TRANSFER OF JUTTE PROPERTY IN COUNTY

Holdings Are Turned Over To James W. Friend.

LARGE CONSIDERATION

Costs $35 To Put Document On File At Washington.

A mammoth deed was filed for record in the recorder's office at Washington yesterday. It transfers from the New York Trust company, trustee of C. Jutte and Company to James W. Friend all the holdings of the Jutte company in this county. The deed is dated September 16, 1908, and the consideration is $750,000. It is in printed form and makes a book of over 100 pages. The fee for recording it was $35.25. The property conveyed consists of all the right, title and interest of C. Jutte and company to certain tracts of coal and coal land situated in East Pike Run township, West Pike Run Township and Beallsville borough, Washington county, Pennsylvania, known as the Coal Center Mine property and the Pike Run Coal field of C. Jutte and company.

The block embraces approximately 2,300 acres of Pittsburg or River Vein coal and about 50 acres of surface, the latter including five houses, store room, engine-house, tipple and buildings connected with the coal works, together with coal cars, machinery, appliances and fixtures connected with the coal works. The property also includes the landing on the Monongahela river known as the Jordan Neel landing near Coal Center in this county.

[redacted] are the following: The "G. W. [redacted]ner," the "Cresley Jutte," all [redacted]ered craft on the [redacted], and 2,000 shares of [redacted] of the Marine Coal [redacted]orporation of the state of [redacted]a, of the par value of $100 [redacted]

[redacted]perty was sold at public sale [redacted]urg on September 11 to the [redacted]idder.

[redacted]NDHOEFFER'S GREAT DANE THE BEST

Ed Gundhoeffer's Great Dane, "Walkur's Tannhauser," after beating the New York winner, "Vohl's Vulcan," at the Pittsburg show last February, has since that time taken first prizes at Cincinnati, Chicago, St. Louis, and would up his triumphal tour at East Liverpool thursday, where he was once more declared the best in his class. He is now considered the finest specimen of a Great Dane in this or any other country, imported champions having been in competition with him in all the cities mentioned and having been defeated by the local entry.

Grundhoeffer is the instructor of the Charleroi Singing club.

Funeral of Child.

The funeral of Mary Elicabeth, the two-year-old child of C. M. Teagarden, who met a tragic death Tuesday evening, being trampled by a frantic horse, will be held Saturday at 2 o'clock from the home. The services will be conducted by the Rev. I. N. Frye, of Charleroi. Interment will be in the Clarksville cemetery.

Who Pays For Advertising.

Did you ever think about it? Who pays for the advertising of merchants and other business men? Not the advertiser, for the costs is returned to him two fold in increased profits. Not the purchaser, if he buys cheaper from the advertiser and has a better assortment and fresher goods to select from. Who then, really pays the advertising bills? The non-advertiser, of course. A just portion of the money he loses by his lack of his initiative enterprise finds its way eventually to the printer, to advance the cause of education and the interest of the community. Who pays for that advertising which attracts the people of the town to other towns? The home merchant not only loses that trade but that loss pays the other fellow's advertising. Isn't it plain? The "store keeper" is an active being of today.

Janitors Of Four Schools Sworn As Special Officers

Can Now Perform the Duties Of Police In This Place

This morining the janitors of the four school buildings of Charleroi, J. E. Rylands, Frank Hope, Thomas Kendricks and L. R Carter, were sworn in as special police by Burgess J. J. Hoit, and were given badges. They will now have power to arrest any person that infringes the law of the school property, and if called upon can make arrests in any part of town.

PAVING WORK ALMOST FINISHED

California Sept. 19.—Excepting a few odds and ends which Contractor Nixon and a few men are now cleaning up his task of grading and paving portions of Wood street and Third avenue has been completed, and those are now ready for acceptance or rejection by the borough council. It is thought that there will not be any delay in their acceptance, as the work as now finished seems to meet with general approval. There has, at times, been considerable friction between the borough engineer's office and Mr. Nixon's employes, but the work has gone on, until its final completion. That there should have been occasion for this friction has been a source of regret to members of the council and to many citizens. The trouble, it is hoped, is now finally settled, with the completion of the work.

Promotion For Local Boys.

Charles Richards, who for some time has been express clerk in the local office of the Adams Express company here left this morning for Donora to take full charge of the agency there, his brother Roy Richards, whom he replaces having been promoted to a higher office at Wilkinsburg. The latter has been assigned to take charge of the Wilkinsburg office. These are desired promotions for both and their many friends are glad to hear of their success.

Special for Saturday and Monday. 372 pairs of men's shoes, worth $2 50 to $3.00, only while they last $1.98. "Adolph." 32t2

NUMBER OF MILL WORKERS HAVE NARROW ESCAPE

Crossing Tracks And Fail To Hear Trains Approaching.

Several people, employes of the Pittsburg Steel mill at Monessen had a very narrow escape from death last evening at about six o'clock. Two passenger trains are due at the station there at the same time and the day shift of the steel mill goes off at near that time. A bridge has been built for the use of the employes over the tracks, but this is not always used. Last night a company of the workers left the mill and started across the tracks, failing to pay much heed as to whether there was a train coming or not. They had got in the center of the [redacted] when the two passenger [redacted] down upon them, come fr[redacted] direction. They were caught [redacted] had little chance to escape, but the engineer of one train seeing the group reversed and stopped within a few feet.

GREENSBURG PAPER ON COMMISSIONERS

The Morning Review charges that the commissioners' convention, held at Greensburg this week, was characterized by scenes of revelry and debauch, and emissaries of corporation agents with pockets full of money furnished free booze and spent with a lavish hand for the visitors. Conspicuous among the agents, says the Review, were Charles Grady, the Western Pennsylvania agent for the Penn Construction company, Congressman Burd Cassell's concern which supplied the metal furnishings for the capitol at Harrisburg, and which also furnished the Westmoreland county court house and "Eddie" Siple from William G. Johnston and Co., of Pittsburg, who furnished books and stationery to numerous counties throughout this section.

BROWNSVILLE READY FOR FREE DELIVERY

Brownsville, Sept. 19.—The borough of Brownsville is now about prepared for free mail delivery. Everything is about in readiness for Uncle Sam's inspector to pass upon the conditions here. Council acted properly in the matter of numbering the houses, repairing sidewalks, placing names of streets at the corners, etc.

The residences and business places have been numbered and the number will be placed soon. To be sure of receiving mail, as soon as free delivery is a fact, it will be necessary for each householder to see that some kind of legible sign bearing the number assigned is posted.

Musical Treat For All That Attend

There will be a musical treat for all who go to Eldora park tomorrow, the Imperial Quartet, of Pittsburg to appear. This quartet is one of the most popular musical organizations in Pittsburg and make a decided hit wherever they appear. This will be a rare opportunity for music lovers.

NO PLACE FOR CENTRAL LEAGUE

The effort to have Charleroi represented in the Central Basket Ball Legue has fallen through. C. B. Power, sporting editor of the Pittsburg Dispatch, offered Charleroi a franchise but it was feared the venture would not prove profitable, and the offer was not accepted. The managers of the skating rink, however, are making an effort to organize some local teams, so that this sport will be represented in Charleroi this winter.

MANY STUDENTS ARE LEAVING FOR COLLEGE

Large Representation of Many Schools In Charleroi.

Students of various colleges of the union, whose homes are in Charleroi, are beginning to leave to take up their work for the fall and winter. There are a large number of colleges represented by students who reside here, scattered throughout many states.

If a person should attempt to make a count of the students whose homes are here and who are now either leaving or preparing to leave for the schools of their choice, they would have a big job on their hands, and would hardly make very much of a success in the undertaking. In all there are perhaps more than a half hundred scattered students of this place. Of course California Normal claims several, while other schools of this near vicinity have enrolled on their register young men and young ladies who claim Charleroi as their home.

AGAIN SEEKS TO TRANSFER LICENSE

A deed was filed for record in the recorder's office yesterday in which Ewdurd Haley, of Roscoe, transferred to William Coulson, of Donora, all his holdings, including the Central hotel property in Roscoe. In the clerk's office at the same time was filed an application of Mr. Haley for a rehearing in the matter of the transfer of his liquor license to Mr. Coulson.

It will be remembered that a transfer was recently refused by Judge McIlvaine and the Haley place later went into the hands of the sheriff. A sale has since been consummated the consideration being $37,500, and now he seeks to have the license transferred. The court has fixed September 21 at 10 a. m. as the time for the rehearing of the application for the transfer of the license.

WANT DEAD REMOVED FROM BURYING GROUND

A petition, signed by 25 citizens, was presented to the court yesterday praying for an order for the removal ofthe remains of the dead from the public burying ground in the Second ward, Washington. The court fixed Monday, Ocotober 12, at 10 o'clock, as the time for the hearing.

The petitioners represent that the burial ground is not in charge of any person, persons, church or religious society and has long ceased to be used for interments; that the general progressive interests of the borough are hampered and interfere with, and the welfare of the borough is injured to the detriment thereof and the public good by the remains of bodies interred there.

Matter of Garbage Settled For Time

Monessen council took up the matter of the disposal of garbage at a meeting Thursday night and settled the issue for a time at least by authorizing the sanitary committee to arrange for a temporary ground to be used as a dump and to secure from individuals, proposals for a franchise granting exclusive right to collect and burn garbage for from five to ten years. It is likely that a temporary dump will be located on the Luce property beyond the dump just ordered vacated.

Claysville, Sept. 19.—The Comptroller of the Currency at Washington, D. C., has approved the application of the Farmers National Bank of Claysville, Pa., to organize with $50,000 capital. The directors are D. W. Rasel, T. D. Bell, R. I. Wright, C. C. Wolfe and F. J. Egan

BREAKING UP OF DIRTY DOZEN GANG FAILS TO STOP BURGLARIES

Youthful Marauders Working In Charleroi Robbing Houses And Stores.

MANY DEEDS OF MISCHIEF

Maliciously Committ Crimes--Rob Peach Trees And Grape Vines

Despite the fact that the "Dirty Dozen" gang, the daring band of boys which for so long a time terrorized this community, has practically been broken up, youthful marauders have been operating here of late, committing robbery and deeds of malicious mischief. There does not seem to be any regularly organized band but rather lads of from ten to fifteen years of age working in pairs and individually.

Last evening a well known lad of this place, son of a prominent local man, while there was for a moment no one in the store, entered the business house of Collins Wall Paper company, opened the cash drawer and it is alleged took $2 in small change out. Mr. S. R. Collins had gone just a short ways down the street on business, leaving a lad employed in the store of Joseph Lichter to guard the store. While he was gone the entry was made by the youthful burglar and the cash drawer, rifled he going out the back way when the manager returned.

Recently a lad of about thirteen years of age was caught at the home of Dr. Alden O. Davis of Fallowfield avenue, and there are quite a number of cases of youngsters being caught robbing peach trees and grape arbors in various parts of town, and doing deeds of malicious mischief. The police know the offenders but are almost powerless to act because the persons who suffer from the lads, refuse to appear against them.

Killed at Ellsworth.

Joseph Arbrosheski, a Russian employed at the Ellsworth mine No. 2 was instantly killed while at work yesterday morning. The man who was a miner was riding out of the entry in which he was working, on a loaded car. In some manner he was caught between the side of the entry and the car and before the trip could be stopped, life was crushed out. He was taken to his home nearby and Undertaker Scurfield of Monongahela notified. He went out and took charge of the body, preparing it for burial. The interment will be made at Ellsworth, probably Sunday.

Our display of shoes would get the grand prize from any world committee of judges. Values that any jury of bargain experts, would crown same way. "Adolph." 32t2

Whee! Monessen May Have a Patrol Wagon

Council Appoints Special Committee To Look After Maintainance.

Monessen may within a few weeks have a patrol wagon. Anyhow a large [redacted] has been collected by Burgess Shutterly, Chief of Police Woolsey and Street Commissioner Frazier. Council has been asked to provide ways and means of supporting the patrol, and have appointed the police and lockup committee to take action looking to the maintenance of the wagon and providing for the finding and keeping of horses.

PHYSICIAN SAYS TO GIVE DOGS WATER

A prominent physician of Monongahela, in speaking of the maddog scare which the people of that place passed through recently, gave some excellent advice, which would be well for owners of these animals to take cognizance of. As is well known the recent drouth has dried up the small streams, making it impossible most for dogs to get water to drink. Observers say that dogs will not go to the river for water, seemingly perferring to depend upon the runs and rivulets which abound in plenty during normal conditions. The streams having all dried up there is no place for them to get water, and as a consequence many of them are compelled to go for days without getting a drop, resulting in a condition which brings on rabies. To obviate this condition of affairs owners of animals should place a pail or a basin filled with water at some convenient place where a dog could have easy acces, and where it could quench its thirst whenever it so desired. Thus taken care of dogs are less likely to go mad, in fact such a condition would practically be eliminated. It would take but little effort for owners to go to this trouble, and in these times, when water is so scarce, it is well worth the trial.

Washington, Sept. 19.—The merchants of the Eighth ward are making complaint because of the number of peddlars of produce who are traveling from house to house in the ward, selling their goods, and operating all the while without a license, while the storekeepers, are obliged to remain in their stores and take whatever trade comes along, after having paid their annual mercantile taxes.

BANKER IS CONVICTED

Joseph C. Majerchak, the foreign banker who operated in Brownsville, was yesterday convicted upon five charges of embezzlement as agent, the lot involving about $500 which Majerchak was entrusted with to be forwarded to the old country.

The prosecution was upon peculiar lines. He had made an assignment of his property, but the schedule showed but few assets. However, this document also showed that the amounts alleged by these men to have been entrusted to him had not only been received but also had not been forwarded to the old country. Receipts for the money were also produced.

After the commonwealth closed its testimony, Attorney A. E. Jones filed a motion with Judge R. E. Umbel, asking that the jury should be instructed for acquittal on the ground that the evidence did not support the charge in the indictment. This was overruled by the court and exceptions were filed by the defense.

The prosecutors in the five cases and the amounts each deposited follows: Mike Popovits, $123; George Vrasazk, $122.75; Sebok Tanos, $20,-65; Paul Boyza, $125; John Bogdon, $103.

Three Gold Medals and the Grand Prize at St. Louis World's Fair-that's a record! I. W. HARPER whiskey is the leader. For sale by W. H. Zellers. 20t2w

How He Became a Successful Saver

A young man started a Bank Account with $25.00 and deposited $25 00 to his credit each month. As his income increased, he increased the amount of his deposits to $50.00, then to $75.00, then to $100.00 per month. Four years have now passed, and he has $4,000 to his credit.

This shows what can be accomplished by systematic saving. Why not try this plan? Open an account with the First National Bank of Charleroi now.

Sept. 19 In History.

1519—Magellan sailed from San Lucar, Spain, on his voyage around the world.

1665—On this day the great plague in London reached its worst, over 2,000 dying and about 10,000 in the week ending this day.

1881—James Abram Garfield, twentieth president of the United States, died at Elberon, N. J.; born 1831.

1905—Dr. Thomas John Barnardo, founder of numerous homes for poor boys in English cities, died in London; born 1845.

ASTRONOMICAL EVENTS.

Sun sets 5:30, rises 5:41; moon rises 12:39 a. m.; moon's age 24 days.

Sept. 20 In History.

356 B. C.—Alexander the Great born; died at 32.

1803—Robert Emmet, eminent and universally revered Irish patriot, hanged for treason, born 1780.

1839—Vice Admiral Sir Thomas Hardy, flag captain to Nelson on board the Victory at Trafalgar, died; born 1769.

1891—Jean Baptiste Rossi, celebrated Italian archaeologist, died, born 1822.

1906—Robert Hitt, former congressman closely associated with Lincoln, died; born 1834.

ASTRONOMICAL EVENTS.

Sun sets 5:37, rises 5:42; moon rises 1:36 a. m.; 2:06 a. m., eastern time, moon in conjunction with Venus, passing from west to east, 5 degrees north of the planet; seen near in early morning sky; 1 a. m., planet Mercury at Aphelion, farthest from sun; sun's declination 1 degree 5 minutes north of celestial equator.

Cause of Wrecks.

An inquiry into the death of the foreigner who was killed in the rail road wreck at Gibsonton, Thursday morning, brings out the fact that the flagman was to blame for the disaster, it being said he was negligent in the performance of his duties. It has been stated furthermore that he was lying asleep by the tracks when the accident occurred.

We will not pretend to question at this time whether the man was awake and alive to his duty or not, but the chances are that if he was asleep, it most likely was because he could not resist the demands of nature any longer, and succumbed. Railroad men such as brakeman, flagmen, engineers and firemen, very frequently suffer from loss of sleep, the corporations by whom they are paid, forgetting in their eager scramble for dividends that human beings are in their employ, instead of machines, and that Mother Nature has supervision over their bodies the same as she has over the heaviest stockholder, therefore failing to provide a method whereby all their thousands of workers may have their proper and regular sleep. A great number of the wrecks in the past have been caused by engineers or other employes of fastly moving trains, becoming overpowered by their desire for rest, falling asleep and failing to see the signals which are flown, flying past and on to certain destruction.

How Will They "Vite."

Our esteemed neighbor, the Washington Observer, rises to observe:

"The gamblers of New York and liquor men of Maine will all vote the Democratic ticket this year. They will vote the Republican ticket in Pennsylvania. They always do."

We would like to know what Uncle Ernie and The Reverend Glenn Moore will do for a ticket. Will you "vite" with the gang, neighbor?—Waynesburg Times.

Electric Sparks.

From Judge Parker's reluctance to run for governor of New York it appears that the last spot on his neck has been rather slow healing.

Gov. Cummins says "all an orator needs is a voice," but in Iowa it seems, a candidate for a seat in the United States Senate needs a good bit of nerve.

Mr. Fairbanks is rapidly accumulating renown as the Sphinx of American politics.

Not Very Popular. No.

An exchange informs us that the Presidential campaign this year is the most quiet in the history of the country. That may be true, but "Bill" Bryan is trying tremendously hard to start something. Really, he must not be very popular after all his telling the people how good a fellow he is and what an irresponsible individual his opponent, "Bill" Taft happens to be.

Much Good Done.

The report of the treasurer of the poor fund shows that considerable good has been done through the money donated by local people. With a balance of nearly two hundred dollars on hands the needy of this city surely cannot fare so badly this winter.

It would be wise for the people to follow the suggestion of the relief board and give their cast off clothing for the relief of the poor. It will do good to them and the givers themselves will profit.

The policy of Washington is the policy of the Republican party.—Calhoun.

The present business system of the country rests on the protective tariff and any attempt to change it to a free trade basis will certainly lead to disaster.—William H. Taft.

With the advent of the aeroplane we suppose there will be a class of idiots who will rock the doggone thing.

A Virginian who hugged Bryan has been fined five dollars for disorderly conduct. In this instance the candidate in the "hands of his friends" proved an expensive proposition.

The equinoctial storm is about due. If that fails to bring rain the case will be more discouraging than ever.

Say, Mr. Weather Man, you need a booting. You got us all excited by your promises of week-end relief in the way of rain and here is the last day at hand and still no wet. Just wait until we catch you.

After Cigarette Dealers.

At the opening of court in Somerset Judge Kooser told the constables that a number of complaints have been received by the court and the district attorney to the effect that it is a general practice in various sections of the county for tobacco dealers to furnish minors with cigarettes, notwithstanding it is a statutory offense.

Judge Kooser instructed the constables to advise all dealers who handle cigarettes in their respective districts of the provisions of the act of assembly of 1905, which makes it a misdemeanor to "furnish by gift, sale or otherwise," cigarettes to boys under 21 years of age. Anyone violating this law is subject to a fine of not less than $100 or more than $300. The court said it would hardly be necessary to make information against those who have violated the statutes, but that a little admonition would probably prove effective. If this fails, however, the constables are to return all violators.

Holding Reception.

This afternoon a reception is being given for the children of the primary department of the Washington Avenue Presbyterian church. About one hundred children and fifty parents are present.

HE ATE THE SOAP.

Garland Would Have Swallowed It if It Had Killed Him.

Augustus H. Garland, who was attorney general under President Cleveland, was very fond of practical jokes and during his term of service in the senate frequently turned the laugh on his colleagues. Senators Voorhees and Vest, with whom he was very friendly, finally determined to turn the tables. Mr. Garland had a habit, like Voorhees, of munching candy, and Vest and Voorhees made it up between them to take advantage of his fondness for sweets to play their trick. They had some tempting looking chocolate caramels prepared, with the interior filled with brown soap. These they took to the senate chamber, and Voorhees placed them on his desk. The lid being off, when Mr. Garland sauntered down the aisle he noticed them at once.

"What have you there, Dan?" he inquired.

Voorhees looked up carelessly from his writing and responded: "Caramels. Help yourself."

Garland needed no second invitation and, picking up two or three, placed one in his mouth. Steadily he chewed away, his face betraying no sign of the conflict within him. This alarmed Voorhees, who went to Vest's desk and said:

"He's eating them, Vest! What shall we do? The stuff will kill him sure!"

Senator Vest replied that it could do no more than make Mr. Garland swallowed the stuff, and as he was foaming at the mouth from the soapsuds. He related the incident afterward with great gusto and said he would have swallowed it if it had killed him.

FLY FOGS IN INDIA.

A Plague That at Times Makes Life Unbearable In Calcutta.

One of the evils of Calcutta is the plague of green flies, from which the whole city suffers at certain times in the year. The happy hunting time of these minute insects is during the late autumn and early winter. They are a serious nuisance both in and out of doors. They wing their way through all the open doors into the houses and into every room, making life unbearable.

Like most insects, the little green flies have a great affection for the flame. On occasion the inhabitants have found it necessary to put out all the gaslights, even at a public dinner, and to take their meals practically in deep gloom, illuminated only by flickering candles.

Naturally it is not at all pleasant to go on eating with dense clouds of insects swarming overhead or, roasted to death, falling about one in pattering showers.

They seem to spring into existence from nowhere. Perhaps it is almost dusk when the lights of the street lamps are becoming visible. Then suddenly the air, which a moment before was quite clear, is full of myriads of green flies, drifting in misty patches and obscuring the street lamps.

Often the number of insects which have been scorched to death is so great that little heaps of them collect inside the lamps, while bucket loads have to be swept up from the roads next morning.—London Answers.

Judging a Melon.

Is there any way for a purchaser to tell a good melon without cutting and testing it? That is exactly what an expert melon grader is expected to do, to judge the flavor of the melon as well as the size. The best external indication in a netted Gem and melons of similar type is a golden greenish color, the melon being deeply ribbed and thickly overlaid with rather coarse gray netting, the edges of which rise perpendicularly from the surface. The melon should be heavy. There should be no ragged or broken stem to indicate that the melon was torn from the vine before it was ripe enough to part freely. If one follows these points he is pretty sure to get the perfection of melon produced by the quality of the seed planted. If the seed has come from a tasteless melon the result will be disappointing even with thorough culture and the best care in picking and shipping.—Baltimore American.

Bore and Critic Both.

Midnight came and still the bore remained.

"Do you like music?" asked the beautiful girl just to break the monotony.

"Passionately fond of it," replied the bore. "In fact, music will always carry me away."

She rushed over to the piano and played several popular airs.

"You are still here," she said, turning on the stool.

"Yes," yawned the bore.

"But I thought you said music always carried you away?"

"So I did—music!"—Dundee Advertiser.

The Value of a Good Memory.

If men only realized how great an asset in life is a retentive memory they would take care to see that their children's were properly trained. The simplest method consists in learning every day a few lines by heart. None of our faculties can be trained so easily as that of memory. — Stuttgart Familienblatt.

The Pantomime.

"Pop, what is a pantomime?"

"A pantomime is a piece in which no one speaks."

"I shouldn't think a piece with no women in it would be interesting."—Yonkers Statesman.

If you want to know how old a woman is, just ask her sister-in-law.—Atchison Globe.

Briefs of the County

Washington, Sept. 19.—Harry F. Moore, who was registered as a law student in the office of R. W. Knox September 3, 1905, has applied for admission to the Washington county bar. The application was reported to the board of examiners for action and report Mr. Moore pursued his studies in the law department of the Western university and the university of Michigan, and the last year in the office of Mr. Knox.

Canonsburg, Sept. 19.—The formal opening of the new Mt. Olive Baptist church, in Vine street, will be observed Sunday, September 27. An interesting program has been prepared for the occasion.

Canonsburg, Sept. 19.—The Standard Tin Plate mill at this place has been compelled to close down on account of the drouth. The mill could get water from the creek, but it would be of such a quality that it would ruin the boilers in a short time. The Hazel mine of the Pittsburg-Buffalo company may have to suspend from the same cause.

Monongahela, Sept. 19.—The schools of this place are in a very over crowded condition and the work on the new building will be rushed.

Roscoe, Sept. 19.—The business of the local postoffice for the year ending June 30, 1908, was such as to advance the class of the office from fourth to third. Postmaster Underwood will under the condition: of a third class office receive a salary of $1,000 a year. The office reached this class once before but was reduced at the time the rural route was taken off from this point.

Convincing Figures.

The report of the Department of Agriculture furnishes some interesting figures on the sheep industry showing the difference between conditions when protection has prevailed and when we have had a tariff for revenue only.

In 1893 when the free trade administration came into power, there were 47,273,553 sheep in the country of an average price per head of $2.66, and of a total value of $125,909,264.

In 1897, at the close of the free trade administration, there were 36,818,643 sheep in the country, of an average price per head of $1.70, and of a total value of $65,167,735.

In other words, in less than four yeas only (which the Democrats favor now) this one industry lost 18,454,90 in numbers, 96 cents per average price per head and in total value $60,741,259.

Then McKinley and the Dingley tariff came to the rescue of the flocks and their owners, and in 1908, there are 54,631,000 sheep in the country, of the average price per head of $3.88, and of a total value of $2,736,000. In other words, a great industry that was being crushed to death by Democratic free trade, has been revived and made strong and prosperous under Republican protection, gaining over 48 per cent in number in ten years, nearly 129 per cent in the average price per head, and the enormous total sum of $145,568,265, or at the rate of over fourteen and one-half millions per year gained to the people engaged in this one industry.

That is a great showing for protection.

Sensible Remarks.

The Christian Register, the able organ of the people who profess the Unitarian faith in this country, indulges in the following sensible remarks concerning the religious opinions of political candidates: "Unitarians in America have never acquired the habit of voting for a candidate because he was a Unitarian, or of voting against a man because he was a Roman Catholic or a Methodist. But, if they were inclined to carry their denominational interests into politics, they would be restrained by the saving race of common sense. They remember the sad fate of Mr. Burchard, the honest gentleman who by the alliteration of the three R's, rum, Romanism and rebellion, was charged with defeating Mr. Blaine, the candidate whom he supported. Any public man who in his private capacity is a loyal Unitarian has the right to let his denominational preferences drop out of sight when he becomes a candidate for office; and he is neither a consistent Unitarian nor a wise supporter of such a candidate who challenges the vast majority who are not lovers of Unitarianism "to make it an issue at the polls." All of which seems a rather pertinent deliverance.

PHOTOGRAPHS SHOULD PLEASE

by presenting the individual in a way that permits Art to help Nature, and both to present the sitter in the best light. It is for this that our Studio is best noted.

The Babbitt Studio, Charleroi, Pa.

JIMMIE'S BEAUTIFUL DREAM.

When Jimmie's turn had come to bat
He heard a mighty shout,
The bases were all nicely filled,
And not a man was out.

Jim gave the plate a sounding whack
And caught the pitcher's eye.
The pitcher turned all sorts of shapes,
Then let the spit ball fly.

Jim swung the bat with giant force
And hit the ball just right.
You should have seen it split the air
And disappear from sight.

Then Jimmie started for his run—
He flew just like a bird—
But when he tumbled out of bed
He hadn't got to third.

—Yonkers Statesman.

Belief Stronger Than Ever.

Motorist—By Jove, I always did believe in wireless telegraphy! Now I'm strong for it.—Meggendorfer Blatter.

Dictionary of Misinformation.

Aviator—An aeronaut before he drops on something hard.

Cheese—Hard hearted milk.

Dumb Waiter—An automatic waiter.

Deaf Waiter—One who hasn't been tipped.

Icicle—A twenty cent piece of ice.

Icicles—Words exchanged between Parsons and Hughes.

Milk—A white liquid usually found on your doorstep by some one up earlier than you.

Milk Punch—A drink the cow would never recognize.—Wex Jones in New York American.

Not a Flier.

"What bird is it," asked the school inspector, "that is found in Africa and, although it has wings, cannot fly?"

The class was unable to answer this very puzzling question. Thinking to encourage them, the inspector offered a sixpence to the little boy or girl who could tell him. After a brief hesitation a little girl of five years put up her hand.

"Well, my little dear," said the inspector, "what is it?"

"Please, sir, a dead un."—London Fun.

Everything points to the Monongahela and Carroll township street railway company extending a line up the Pigeon creek valley soon and citizens of the region through which it will pass are exceedingly hopeful of the project being rushed to completion.

Last winter a franchise was granted by the Monongahela council for the company to place lines over the Monongahela streets. This work was to have been started within six months and was to have been completed within two years. A bond of $5,000 was filed by the concern. Today is the day set for the work to be started according to the terms of the franchise. Yesterday a letter was received from the president of the company, George M. Hosack, stating that work had been started by surveyors having made a plan of the system through Monongahela and that material for beginning active operations would be shipped to this town immediately.

It is the belief that the company means business and will within the prescribed time have a street car service up the busy Pigeon Creek valley.

Alarming.

"Now, don't tell me any story about misfortune an' wantin' to be a hard worker an' all that," said the hard faced lady. "I can see right through you."

"Gracious!" said Dismal Dawson. "I know I ain't had nothin' to eat for three days, but I didn't know it had thinned me down like that."

Tender Touch.

A man who is rough and awkward at everything else will show a delicacy and skill greater than any woman's when he has to patch a ten dollar bill.—Atchison Globe.

More Than Equal.

Lady—You look robust. Are you equal to the task of sawing wood? Tramp—Equal isn't the word, mum. I'm superior to it. Good morning!—Chicago News.

A Story of Blackie.

Professor Blackie of Edinburgh, a martinet in the class room, was one day hearing a class with the individuals of which he was not acquainted. Presently a student rose to read a paragraph, his book held in his right hand.

"Sir," cried the professor in his autocratic way, "hold your book in your left hand!"

The student was about to speak, but the professor stopped him with a peremptory command:

"No words, sir; your left hand, I say!"

Then the student held up his left arm, which ended at the wrist.

"Sir," said he, "I hae nae left hand."

Before the professor could speak there came a perfect storm of hisses from the class, and when he did speak the hisses drowned what he said. Then he left his place and went down to the student whose feelings he had unintentionally hurt, threw his arm around him and drew him close.

"My boy," said the professor, speaking softly, yet being heard by every one in the room, "you'll forgive me that I was overwrought. I did not know! I did not know!"

Then he turned to the students, and, with a look and a tone that came straight from the heart, he said:

"And let me say to all of you that I am glad to be shown that I am teaching a class of gentlemen!"

Dominos.

It has been estimated that two persons playing dominos ten hours a day and making four plays a minute could continue 118,000 years without exhausting all the combinations of the game, the total of which is 248,528,211,840.

Examine the Collar.

The horse collar which rubs up a lap of flesh at every stride of the animal will soon wear a gall on its neck. So will a very dirty collar in warm weather.

Four Greeks Are Arrested For Conspiracy

Four Greeks of Monessen were arrested this morning on charges of conspiracy preferred by an Allegheny county detective before Justice James A. Watkins of that place. They are now in the lockup awaiting a hearing on Monday. The names of the men are George Kerakis, Joseph Sarantinas, Strapis Misarlides, George Velakas. The conspiracy charge grows out of the starting of a confectionary store in Monessen.

NEW PHYSICAL DIRECTOR FOR TURNERS

Wm. Fechter of Roscoe has been elected instructor of the active turners at the Charleroi Turn Verein to take the place of Otto Kahle, who has resigned, leaving Wednesday for Indianapolis, where he will enter the seminary there to become a professional physical trainer.

Washington, Sept. 19.—Upon the petition of the Williams, Proctor and Potts company, who are constructing the sewage disposal plant at Arden, and 25 citizens of South Strabane and Chartiers townships, the court yesterday appointed Samuel Abbott as a deputy constable.

Personal Mention

Miss Ella Sickels of the News Office Donora was a Charleroi caller yesterday.

Miss Jennie Moore of Donora was visiting friends in this place Friday.

Miss Bertha Kline is a Pittsburg visitor today.

Miss Lizzie Taylor of near West Brownsville returned home this morning after a visit in Charleroi with friends.

Miss Mary Moffitt and Mrs. John H. Moffitt are in Coal Centre today attending a party in honor of Mrs. Eli Hormell.

Guy Moffitt and Paul Moffitt are Coal Centre visitors today.

Mrs. J. R. Chalfant and baby Alvera left this morning for Carmichaels where they will visit her father, J. O Guseman.

Mrs. William Bates who has been a guest of Mr. and Mrs. Ellis Murdock, of McKean avenue left this morning for her home in Waterloo, Iowa.

Thomas Eagye, John McKean, Stewart McKean, J. H. Frye, Lawrence Frye, Frank Arrison, Dr. Repman and Charles Steele were visitors in Pittsburg last evening.

Mr. and Mrs. S. T. Jack and daughter Alberta of Washington avenue left this morning for Pittsburg for a visit with friends and relatives.

Charles Bateman and Dr. McNaughton were in Pittsburg last evening.

The local office of the Adams Express company has received two new wagons.

Mr. and Mrs. W. H. Reese are in Pittsburg this afternoon and evening attending the Exposition.

George Barnett leaves this evening for Niagara Falls to spend a few days.

Mrs. J. K Johnson and mother, Mrs. A J. Grannis are visitors in Pittsburg today.

Mr. and Mrs. J. H. Frye left this morning for Niagara Falls for a visit.

J. D. Berryman and William Gault were visitors last evening in Pittsburg.

William McDermott, Mr. and Mrs. Thomas McDermott and John McDermott left today in their touring car for Youngstown, Ohio, to visit a few days.

Troubles of a Constable.

The Charleroi constable came down here Wednesday to serve an execution and make a levy to satisfy a judgment at the home of John Torson. The levy was made on a sewing machine, but when the officer went to remove the machine he had a round with Mrs. Torson. The woman came out second best and lost a few square inches of cuticle from her right shin. She afterwards exhibited the wound in the office of a local justice and wanted to get a warrant for the arrest of the officer.—Donora American.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

WORSHIP IN THE CHARLEROI CHURCHES

Christian

Services at the Christian church next Lord's Day. Sunday school 11 a. m. C. E. 6:45 p. m. Sermon themes, morning, "The Spiritual Church" Evening, "What is Man?" A cordial welcome awaits all.

Players to Represent Charleroi.

The following players will represent Charleroi association football team in the game with McKeesport today: A. Baird, Capt. Hynes, Menser, Quinn, McEwan, Clark, Griffith, Holden, Torey, C. Baird, Aitken, Smith and Brooks.

First Presbyterian

Rev. T. Neal, of Donora, will conduct the morning services at 11 o'clock. No services in the evening. Sunday school at the usual hour, 9:45.

African Baptist.

The Second Baptist church of Lock No. 4, will be closed Sunday as the Rev. S. P. Young will be absent from the city.

Lutheran

Trust Company building. Sunday school at 9:45 a. m. Divine worship at 11 o'clock with sermon by the pastor Rev. C. E. Frontz. Luther league at 6:30 p. m., subject, "The New Life." leader, Mr. H. J. Gehring. Evening worship at 7:30 p. m. The public is most cordially invited to these services

Methodist.

Usual services Sunday. Sunday school 9:45. Morning worship at 11 o'clock. Evening services at 7:45 o'clock.

There will be Orchestral music at Sabbath school in the morning.

Won't Dye Hair.

The strongest complaint in the divorce courts noted by us ever before, says the Clearfield Spirit, is that of a Punxsutawney woman who wants to leave her husband because he won't dye his red hair the color of the furniture. She should have large alimony gratefully paid by the husband of such a wife. Some men have no artistic tendencies. This reminds one of the Clearfield young ladies who dye their hair to suit the new suit, still having three or four colors of hair in a year, eh?

FRICK GIVES $10,000 FOR MASONIC TEMPLE

Connellsville, Pa., Sept. 18.—Masons from all parts of Western Pennsylvania assembled here today to attend the formal opening of the new temple of King Solomon lodge No. 316, F. and A. M., one of the finest in the state. Two donations were announced, one of $10,000 from Henry Clay Frick, a former member of King Solomon lodge, and $1,000 from Dr. George W. Newcomer of Connellsville.

John M. Carter of Baltimore, past grand master of Maryland, was the principal speaker this afternoon. John W. McClaren, president of the Connellsville Masonic association, called the meeting to order, and John A. Armstrong was the presiding officer. Others who spoke were: Attorney E. C. Higbee, Connellsville; A. A. Carmack, Brownsville; Dr. J. L. Cochran, Fayette City; M. L. Cole, Cumberland; L. F. Ruth, Connellsville; the Rev. G. C. Shephard, Washington, Pa.; F. M. Richey, Scottdale. Tonight the ladies' auxiliary of the Y. M. C. A. served a banquet for the guests.

The new temple is built of brick and stone and cost $80,000.

Home This Week.

Joseph Soulsby, yardmaster of the Monongahela railroad yard, is expected home today from the Allegheny General hospital. It will be remembered Mr. Soulsby was taken to this institution suffering with grangreen caused from a corn and it was thought amputation of the leg would be necessary. This however was averted, and only the great toe and a piece of diseased bone in the foot was taken off. Mr. Soulsby's friends are glad to learn of his speedy recovery.

The time for burning leaves has come and those who indulge in that sort of thing should be extremely careful at this time and until there are heavy rains. With everything so dry a serious fire might be easily started. A fire once started would be hard to control. Wooden buildings would burn rapidly and a fire would be hard on the water supply. Leaves should be disposed of in some other manner or the fire most carefully watched.—Scottdale Independent.

THE CHARLEROI MAIL

Entered [illegible] at Charleroi, June 16, 1900, according to Act of Congress of March 3, 1879

VOL. 9 No. 33 CHARLEROI, WASHINGTON CO., PA. SATURDAY, SEPTEMBER 19, 1908 One Cent

MAMMOTH DEED FILED IN TRANSFER OF JUTTE PROPERTY IN COUNTY

Holdings Are Turned Over To James W. Friend.

LARGE CONSIDERATION

Costs $35 To Put Document On File At Washington.

A mammoth deed was filed for record in the recorder's office at Washington yesterday. It transfers from the New York [illegible] of C. Jutte and Company to James W. Friend all the mortgaged [illegible] company in this county. The deed is dated September 16, 1908, and the consideration is $[illegible]. It is in printed form and makes a book of over 100 pages. The fee for recording it was $35.25. The property conveyed consists of all the right, title and interest of C. Jutte and company to certain tracts of coal and coal land situated in East Pike Run [illegible], West Pike Run Township and Beallsville borough, Washington county, Pennsylvania, known as the Coal Center Mine property and the Pike Run Coal field of C. Jutte and company.

The block embraces approximately 2,300 acres of Pittsburg or river vein coal and some [illegible] acres of the latter including five houses, store room, [illegible] and buildings connected with the coal mines together with coal cars, machinery, appliances and fixtures connected with the coal works. The property also includes the landing on the Monongahela river known as the Jordan Neel landing near Coal Center in this county.

[illegible] are the following: The "G. W. [illegible]," the "Frederick Jutte," all [illegible] on the [illegible] and 2,000 shares of [illegible] of the Marion Coal [illegible] corporation of the state of [illegible], of the par value of $[illegible].

The property was sold at public sale at [illegible]burg on September 14 to the highest bidder.

GUNDHOEFFER'S GREAT DANE THE BEST

Ed Gundhoeffer's Great Dane, "Walkur's Tannhauser," after beating the New York winner, "Vahl's Vulcan," at the Pittsburg show last February, has since that time taken first prizes at Cincinnati, Chicago, St. Louis, and would up his triumphal tour at East Liverpool thursday, where he was once more declared the best in his class. He is now considered the finest specimen of a Great Dane in this or any other country, imported champions having been in competition with him in all the cities mentioned and having been defeated by the local entry.

Grundhoeffer is the instructor of the Charleroi Singing club.

Funeral of Child.

The funeral of Mary Elicabeth, the two-year-old child of C. M. Teagarden, who met a tragic death Thursday evening, being trampled by a frantic horse, will be held Saturday at 2 o'clock from the home. The services will be conducted by the Rev. I. N. Frye, of Charleroi. Interment will be in the Clarksville cemetery.

Who Pays For Advertising.

Did you ever think about it? Who pays for the advertising of merchants and other business men? Not the advertiser, for the costs is returned to him two fold in increased profits. Not the purchaser, if he buys cheaper from the advertiser and has a better assortment and fresher goods to select from. Who then, really pays the advertising bills? The non-advertiser, of course. A just portion of the money he loses by his lack of his initiative enterprise finds its way eventually to the printer, to advance the cause of education and the interest of the community. Who pays for that advertising which attracts the people of the town to other towns? The home merchant not only loses that trade but that loss pays the other fellow's advertising. Isn't it plain? [illegible] of today.

Janitors Of Four Schools Sworn As Special Officers

Can Now Perform the Duties Of Police In This Place.

This morning the janitors of the four school buildings of Charleroi, J. B. Williams, Frank Hays, Thomas Kourtides and L. S. Custer, were sworn in as special police by Burgess A. J. Hunt, and were given badges. They will now have power to arrest any person that infringes the law of the school property, and if called upon can make arrests in any part of town.

PAVING WORK ALMOST FINISHED

[illegible], Sept. 19.—Excepting a few odds and ends which Contractor Nixon and a few men are now cleaning up his task of grading and paving portions of Wood street and Third avenue has been completed, and these are now ready for acceptance or rejection by the borough council. It is thought that there will not be any delay in their acceptance as the work so now finished seems to meet with general approval. There has, at times, been considerable friction between the borough engineer's office and Mr. Nixon's employes, but the work has gone on, until its final completion. That there should have been occasion for this friction has been a source of regret to members of the council and to many citizens. The trouble, it is hoped, is now finally settled, with the completion of the work.

Promotion For Local Boys.

Charles Richards, who for sometime has been express clerk in the local office of the Adams Express company here left this morning for Donora to take full charge of the agency there, his brother Roy Richards, whom he replaces having been promoted to a higher office at Wilkinsburg. The latter has been assigned to take charge of the Wilkinsburg office. These are desired promotions for both and their many friends are glad to hear of their success.

Special for Saturday and Monday, 372 pairs of men's shoes, worth $2.50 to $3.00, only while they last $1.98. "Adolph." 32t2

NUMBER OF MILL WORKERS HAVE NARROW ESCAPE

Crossing Tracks And Fail To Hear Trains Approaching.

Several people, employes of the Pittsburg Steel mill at Monessen had a very narrow escape from death last [illegible] passenger trains are due at the station there at the same time and the day shift of the steel mill goes off at near that time. A bridge has been built for the use of the employes over the tracks, but this is not always used. Last night a company of the workers left the mill and started across the tracks, taking no pay much heed as to whether there was a train coming or not. [illegible], but got in the center of the [illegible] when the two passenger [illegible] down upon them, came from [illegible] direction. They were [illegible] and has little chance to escape, but the engineer of one train seeing the group reversed and stopped within a few feet.

GREENSBURG PAPER AGAIN SEEKS TO SEE COMMISSIONERS

The Morning Review charges that the commissioners' convention, held at Greensburg this week, was characterized by scenes of revelry and debauch, and emissaries of corporation agents with pockets full of money furnished free booze and spent with a lavish hand for the visitors. Conspicuous among the agents, says the Review, were Charles Grady, the Western Pennsylvania agent for the Penn Construction company, Congressman Burd Cassell's concern which supplied the metal furnishings for the capitol at Harrisburg, and which also furnished the Westmoreland county court house and "Eddie" Siple from William G. Johnston and Co., of Pittsburg, who furnished books and stationery to numerous counties throughout this section.

BROWNSVILLE READY FOR FREE DELIVERY

Brownsville, Sept. 19.—The borough of Brownsville is now about prepared for free mail delivery. Everything is about in readiness for Uncle Sam's inspector to pass upon the conditions here. Council acted properly in the matter of numbering the houses, repairing sidewalks, placing names of streets at the corners, etc.

The residences and business places have been numbered and the number will be placed soon. To be sure of receiving mail, as soon as free delivery is a fact, it will be necessary for each householder to see that some kind of legible sign bearing the number assigned is posted.

Musical Treat For All That Attend

There will be a musical treat for all who go to Eldora park tomorrow, the Imperial Quartet, of Pittsburg to appear. This quartet is one of the most popular musical organizations in Pittsburg and make a decided hit wherever they appear. This will be a rare opportunity for music lovers.

NO PLACE FOR CENTRAL LEAGUE

The effort to have Charleroi represented in the Central Basket Ball Legue has fallen through. C. B. Power, sporting editor of the Pittsburg Dispatch, offered Charleroi a franchise but it was feared the venture would not prove profitable, and the offer was not accepted. The managers of the skating rink, however, are making an effort to organize some local teams, so that this sport will be represented in Charleroi this winter.

MANY STUDENTS ARE LEAVING FOR COLLEGE

Large Representation of Many Schools In Charleroi.

Students of various colleges of the union, whose homes are in Charleroi, are beginning to leave to take up [illegible]. There are a large number of colleges represented by students who reside here, scattered throughout many states.

If a person should attempt to make a count of the students whose homes are here and who are now either leaving [illegible] schools of their choice, they would have a big [illegible] and would hardly make very much of a success in the undertaking. In all there are perhaps more than a half hundred scattered students of this place. Of course California Normal claims several, while other schools of this near vicinity have enrolled on their register young men and young ladies who claim Charleroi as their home.

GREENSBURG AGAIN SEEKS TO TRANSFER LICENSE

A deed was filed in the recorder's office yesterday in which Edward Haley, of Roscoe, transferred to William Coulson, of Dunlap, all his holdings, including the Central hotel property in Roscoe. In the clerk's office at the same time was filed an application of Mr. Haley for a rehearing in the matter of the transfer of his liquor license to Mr. Coulson.

It will be remembered that a transfer was recently refused by Judge McIlvaine and the Haley place later went into the hands of the sheriff. A sale has since been consummated the consideration being $37,500, and now he seeks to have the license transferred. The court has fixed September 21 at 10 a. m. as the time for the rehearing of the application for the transfer of the license.

WANT DEAD REMOVED FROM BURYING GROUND

A petition, signed by 25 citizens, was presented to the court yesterday praying for an order for the removal of the remains of the dead from the public burying ground in the Second ward, Washington. The court fixed Monday, October 12, at 10 o'clock, as the time for the hearing.

The petitioners represent that the burial ground is not in charge of any person, persons, church or religious society and has long ceased to be used for interments; that the general progressive interests of the borough are hampered and interfere with, and the welfare of the borough is injured to the detriment thereof and the public good by the remains of bodies interred there.

Matter of Garbage Settled For Time

Monessen council took up the matter of the disposal of garbage at a meeting Thursday night and settled the issue for a time at least by authorizing the sanitary committee to arrange for a temporary ground to be used as a dump and to secure from individuals, proposals for a franchise granting exclusive right to collect and burn garbage for from five to ten years. It is likely that a temporary dump will be located on the Luce property beyond the dump just ordered vacated.

Claysville, Sept. 19.—The Comptroller of the Currency at Washington, D. C., has approved the application of the Farmers National Bank of Claysville, Pa., to organize with $50,000 capital. The directors are D. W. Rasel, T. D. Bell, R. I. Wright, C. C. Wolfe and F. J. Egan

Use Golden Crescent Flour. At your grocers. 7tf

BREAKING UP OF DIRTY DOZEN GANG FAILS TO STOP BURGLARIES

Youthful Marauders Working In Charleroi Robbing Houses And Stores.

MANY DEEDS OF MISCHIEF

Maliciously Committ Crimes--Rob Peach Trees And Grape Vines.

Despite the fact that the "Dirty Dozen" gang, the daring band of boys which for so long a time terrorized this community, has practically [illegible], youthful marauders have been operating here of late, committing many and deeds of malicious mischief. There does not seem to be any regularly organized band but rather lads of from ten to fifteen years of age working in pairs and individually.

Last evening a well known lad of this place, son of a prominent local man, while there was for a moment no one in the store, entered the business house of Collins Wall Paper company, opened the cash drawer and it is alleged took $2 in small change out. Mr. S. R. Collins had gone just a short ways down the street on business, leaving a lad employed in the store of Joseph Lichter to guard the store. While he was gone the entry was made by the youthful burglar and the cash drawer, rifled he going out the back way when the manager returned.

Recently a lad of about thirteen years of age was caught at the home of Dr. Alden O. Davis of Fallowfield avenue, and there are quite a number of cases of youngsters being caught robbing peach trees and grape arbors in various parts of town, and doing deeds of malicious mischief. The police know the offenders but are almost powerless to act because the persons who suffer from the lads, refuse to appear against them.

Killed at Ellsworth.

Joseph Arbrosheski, a Russian employed at the Ellsworth mine No. 2 was instantly killed while at work yesterday morning. The man who was a miner was riding out of the entry in which he was working, on a loaded car. In some manner he was caught between the side of the entry and the car and before the trip could be stopped, life was crushed out. He was taken to his home nearby and Undertaker Scurfield of Monongahela notified. He went out and took charge [illegible]. The interment will be made at Ellsworth, probably Sunday.

Our display of shoes would get the grand prize from any world committee of judges. Values that any jury of buyers' experts, would crown same way. "Adolph." 32t2

Wheel Monessen May Have a Patrol Wagon

Council Appoints Special Committee To Look After Maintainance.

Monessen may within a few weeks have a patrol wagon. Anyhow a [illegible] has been collected by Burgess [illegible] and Police Wardsley and Street Commissioner Frazier, council has been called on to provide ways and means of supporting the patrol, and have appointed the police and lodging committee to take action looking to the maintenance of the wagon and providing for the finding and keeping of horses.

PHYSICIAN SAYS TO GIVE DOGS WATER

A prominent physician of Monongahela, in speaking of the maddog scare which the people of that place passed through recently, gave some excellent advice, which would be well for owners of these animals to take cognizance of. As is well known the recent drouth has dried up the small streams, making it impossible most for dogs to get water to drink. Observers say that dogs will not go to the river for water, seemingly perferring to depend upon the runs and rivulets which abound in plenty during normal conditions. The streams having all dried up there is no place for them to get water, and as a consequence many of them are compelled to go for days without getting a drop, resulting in a condition which brings on rabies. To obviate this condition of affairs owners of animals should place a pail or a basin filled with water at some convenient place where a dog could have easy acces, and where it could quench its thirst whenever it so desired. Thus taken care of dogs are less likely to go mad, in fact such a condition would practically be eliminated. It would take but little effort for owners to go to this trouble, and in these times, when water is so scarce, it is well worth the trial.

Washington, Sept. 19.—The merchants of the Eighth ward are making complaint because of the number of peddlars of produce who are traveling from house to house in the ward, selling their goods, and operating all the while without a license, while the storekeepers, are obliged to remain in their stores and take whatever trade comes along, after having paid their annual mercantile taxes.

BANKER IS CONVICTED

Joseph C. Majerchak, the foreign banker who operated in Brownsville, was yesterday convicted upon five charges of embezzlement as agent, the lot involving about $500 which Majerchak was entrusted with to be forwarded to the old country.

The prosecution was upon peculiar lines. He had made an assignment of his property, but the schedule showed but few assets. However, this document also showed that the amounts alleged by these men to have been entrusted to him had not only been received but also had not been forwarded to the old country. Receipts for the money were also produced.

After the commonwealth closed its testimony, Attorney A. E. Jones filed a motion with Judge R. E. Umbel, asking that the jury should be instructed for acquittal on the ground that the evidence did not support the charge in the indictment. This was overruled by the court and exceptions were filed by the defense.

The prosecutors in the five cases and the amounts each deposited follows: Mike Popovits, $123; George Vrasazk, $122.75; Sebok Tanos, $20,-65; Paul Boyzo, $125; John Bogdon, $103.

Three Gold Medals and the Grand Prize at St. Louis World's Fair-that's a record! I. W. HARPER whiskey is the leader. For sale by W. H. Zellers. 29t2w

Have a look inside. Sample shoes split open so you can see all the leather. "Adolph." 32t2

How He Became a Successful Saver

A young man started a Bank Account with $25.00 and deposited $25.00 to his credit each month. As his income increased, he increased the amount of his deposits to $50.00, then to $75.00, then to $100.00 per month. Four years have now passed, and he has $4,000 to his credit.

This shows what can be accomplished by systematic saving. Why not try this plan? Open an account with the First National Bank of Charleroi now.

Sept. 19 In History.

1519—Magellan sailed from San Lucar, Spain, on his voyage around the world.

1665—On this day the great plague in London reached its worst, over 2,000 dying and about 10,000 in the week ending this day.

1881—James Abram Garfield, twentieth president of the United States, died at Elberon, N. J.; born 1831.

1905—Dr. Thomas John Barnardo, founder of numerous homes for poor boys in English cities, died in London; born 1845.

ASTRONOMICAL EVENTS.

Sun sets 5:39, rises 5:41; moon rises 12:39 a. m.; moon's age 24 days.

Sept. 20 In History.

356 B. C.—Alexander the Great born; died at 32.

1803—Robert Emmet, eminent and universally revered Irish patriot, hanged for treason; born 1780.

1839—Vice Admiral Sir Thomas Hardy, flag captain to Nelson on board the Victory at Trafalgar, died; born 1769.

1894—Jean Baptiste Rossi, celebrated Italian archaeologist, died; born 1822.

1906—Robert Hitt, former congressman closely associated with Lincoln, died; born 1834.

ASTRONOMICAL EVENTS.

Sun sets 5:37, rises 5:42; moon rises 1:36 a. m.; 2:06 a. m., eastern time, moon in conjunction with Venus, passing from west to east, 5 degrees north of the planet; seen near in early morning sky; 4 a. m., planet Mercury at Aphelion, farthest from sun; sun's declination 1 degree 5 minutes north of celestial equator.

Cause of Wrecks.

An inquiry into the death of the foreigner who was killed in the rail road wreck at Gibsonton, Thursday morning, brings out the fact that the flagman was to blame for the disaster, it being said he was negligent in the performance of his duties. It has been stated furthermore that he was lying asleep by the tracks when the accident occurred.

We will not pretend to question at this time whether the man was awake and alive to his duty or not, but the chances are that if he was asleep, it most likely was because he could not resist the demands of nature any longer, and succumbed. Railroad men such as brakeman, flagmen, engineers and firemen, very frequently suffer from loss of sleep, the corporations by whom they are paid, forgetting in their eager scramble for dividends that human beings are in their employ, instead of machines, and that Mother Nature has supervision over their bodies the same as she has over the heaviest stockholder, therefore failing to provide a method whereby all their thousands of workers may have their proper and regular sleep. A great number of the wrecks in the past have been caused by engineers or other employes of fastly moving trains, becoming overpowered by their desire for rest, falling asleep and failing to see the signals which are flown, flying past and on to certain destruction.

How Will They "Vite."

Our esteemed neighbor, the Washington Observer, rises to observe:

"The gamblers of New York and liquor men of Maine will all vote the Democratic ticket this year. They will vote the Republican ticket in Pennsylvania. They always do."

We would like to know what Uncle Ernie and The Reverend Glenn Moore will do for a ticket. Will you "vite" with the gang, neighbor?—Waynesburg Times.

Electric Sparks.

From Judge Parker's reluctance to run for governor of New York it appears that the last spot on his neck has been rather slow healing.

Gov. Cummins says "all an orator needs is a voice," but in Iowa it seems, a candidate for a seat in the United States Senate needs a good bit of nerve.

Mr. Fairbanks is rapidly accumulating renown as the Sphinx of American politics.

Not Very Popular, No.

An exchange informs us that the Presidential campaign this year is the most quiet in the history of the country. That may be true, but "Bill" Bryan is trying tremendously hard to start something. Really, he must not be very popular after all his telling the people how good a fellow he is and what an irresponsible individual his opponent, "Bill" Taft happens to be.

Much Good Done.

The report of the treasurer of the poor fund shows that considerable good has been done through the money donated by local people. With a balance of nearly two hundred dollars on hands the needy of this city surely cannot fare so badly this winter.

It would be wise for the people to follow the suggestion of the relief board and give their cast off clothing for the relief of the poor. It will do good to them and the givers themselves will profit.

The policy of Washington is the policy of the Republican party.—Calhoun.

The present business system of the country rests on the protective tariff and any attempt to change it to a free trade basis will certainly lead to disaster.—William H. Taft.

With the advent of the aeroplane we suppose there will be a class of idiots who will rock the doggone thing.

A Virginian who hugged Bryan has been fined five dollars for disorderly conduct. In this instance the candidate in the "hands of his friends" proved an expensive proposition.

The equinoctial storm is about due. If that fails to bring rain the case will be more discouraging than ever.

Say, Mr. Weather Man, you need a booting. You got us all excited by your promises of week-end relief in the way of rain and here is the last day at hand and still no wet. Just wait until we catch you.

After Cigarette Dealers.

At the opening of court in Somerset Judge Kooser told the constables that a number of complaints have been received by the court and the district attorney to the effect that it is a general practice in various sections of the county for tobacco dealers to furnish minors with cigarettes, notwithstanding it is a statutory offense.

Judge Kooser instructed the constables to advise all dealers who handle cigarettes in their respective districts of the provisions of the act of assembly of 1905, which makes it a misdemeanor to "furnish by gift, sale or otherwise," cigarretts to boys under 21 years of age. Anyone violating this law is subject to a fine of not less than $100 or more than $300. The court said it would hardly be necessary to make information against those who have violated the statutes, but that a little admonition would probably prove effective. If this fails, however, the constables are to return all violators.

Holding Reception.

This afternoon a reception is being given for the children of the primary department of the Washington Avenue Presbyterian church. About one hundred children and fifty parents are present.

HE ATE THE SOAP.

Garland Would Have Swallowed It If It Had Killed Him.

Augustus H. Garland, who was attorney general under President Cleveland, was very fond of practical jokes and during his term of service in the senate frequently turned the laugh on his colleagues. Senators Voorhees and Vest, with whom he was very friendly, finally determined to turn the tables. Mr. Garland had a habit, like Voorhees, of munching candy, and Vest and Voorhees made it up between them to take advantage of his fondness for sweets to play their trick. They had some tempting looking chocolate caramels prepared, with the interior filled with brown soap. These they took to the senate chamber, and Voorhees placed them on his desk. The lid being off, when Mr. Garland sauntered down the aisle he noticed them at once.

"What have you there, Dan?" he inquired.

Voorhees looked up carelessly from his writing and responded: "Caramels. Help yourself."

Garland needed no second invitation and, picking up two or three, placed one in his mouth. Steadily he chewed away, his face betraying no sign of the conflict within him. This alarmed Voorhees, who went to Vest's desk and said:

"He's eating them, Vest! What shall we do? The stuff will kill him sure!"

Senator Vest replied that it could do no more than make him sick. Garland swallowed the stuff, although he was foaming at the mouth from the soapsuds. He related the incident afterward with great gusto and said he would have swallowed it if it had killed him.

FLY FOGS IN INDIA.

A Plague That at Times Makes Life Unbearable In Calcutta.

One of the evils of Calcutta is the plague of green flies, from which the whole city suffers at certain times in the year. The happy hunting time of these minute insects is during the late autumn and early winter. They are a serious nuisance both in and out of doors. They wing their way through all the open doors into the houses and into every room, making life unbearable.

Like most insects, the little green flies have a great affection for the flame. On occasion the inhabitants have found it necessary to put out all the gaslights, even at a public dinner, and to take their meals practically in deep gloom, illuminated only by flickering candles.

Naturally it is not at all pleasant to go on eating with douse clouds of insects swarming overhead or, roasted to death, falling about one in pattering showers.

They seem to spring into existence from nowhere. Perhaps it is almost dusk when the lights of the street lamps are becoming visible. Then suddenly the air, which a moment before was quite clear, is full of myriads of green flies, drifting in misty patches and obscuring the street lamps.

Often the number of insects which have been scorched to death is so great that little heaps of them collect inside the lamps, while bucket loads have to be swept up from the roads next morning.—London Answers.

Judging a Melon.

Is there any way for a purchaser to tell a good melon without cutting and testing it? That is exactly what an expert melon grader is expected to do, to judge the flavor of the melon as well as the size. The best external indication in a netted Gem and melons of similar type is a golden greenish color, the melon being deeply ribbed and thickly overlaid with rather coarse gray netting, the edges of which rise perpendicularly from the surface. The melon should be heavy. There should be no ragged or broken stem to indicate that the melon was torn from the vine before it was ripe enough to part freely. If one follows these points he is pretty sure to get the perfection of melon produced by the quality of the seed planted. If the seed has come from a tasteless melon the result will be disappointing even with thorough culture and the best care in picking and shipping.—Baltimore American.

Bore and Critic Both.

Midnight came and still the bore remained.

"Do you like music?" asked the beautiful girl just to break the monotony.

"Passionately fond of it," replied the bore. "In fact, music will always carry me away."

She rushed over to the piano and played several popular airs.

"You are still here," she said, turning on the stool.

"Yes," yawned the bore.

"But I thought you said music always carried you away?"

"So I did—music!"—Dundee Advertiser.

The Value of a Good Memory.

If men only realized how great an asset in life is a retentive memory they would take care to see that their children's were properly trained. The simplest method consists in learning every day a few lines by heart. None of our faculties can be trained so easily as that of memory. — Stuttgart Familienblatt.

The Pantomime.

"Pop, what is a pantomime?"

"A pantomime is a piece in which no one speaks."

"I shouldn't think a piece with no women in it would be interesting."—Yonkers Statesman.

If you want to know how old a woman is, just ask her sister-in-law.—Atchison Globe.

Briefs of the County

Washington, Sept. 19.—Harry F. Moore, who was registered as a law student in the office of R. W. Knox September 3, 1905, has applied for admission to the Washington county bar. The application was reported to the board of examiners for action and report Mr. Moore pursued his studies in the law department of the Western university and the university of Michigan, and the last year in the office of Mr. Knox.

Canonsburg, Sept. 19.—The formal opening of the new Mt. Olive Baptist church, in Vine street, will be observed Sunday, September 27. An interesting program has been prepared for the occasion.

Canonsburg, Sept. 19.—The Standard Tin Plate mill at this place has been compelled to close down on account of the drouth. The mill could get water from the creek, but it would be of such a quality that it would ruin the boilers in a short time. The Hazel mine of the Pittsburg-Buffalo company may have to suspend from the same cause.

Monongahela, Sept. 19.—The schools of this place are in a very over crowded condition and the work on the new building will be rushed

Roscoe, Sept. 19.—The business of the local postoffice for the year ending June 30, 1908, was such as to advance the class of the office from fourth to third. Postmaster Underwood will under the condition: of a third class office receive a salary of $1,000 a year. The office reached this class once before but was reduced at the time the rural route was taken off from this point.

Convincing Figures.

The report of the Department of Agriculture furnishes some interesting figures on the sheep industry showing the difference between conditions when protection has prevailed and when we have had a tariff for revenue only.

In 1893 when the free trade administration came into power, there were 47,273,553 sheep in the country of an average price per head of $2.66, and of a total value of $125,909,264.

In 1897, at the close of the free trade administration, there were 36,818,643 sheep in the country, of an average price per head of $1.70, and of a total value of $65,167,735.

In other words, in less than four yeas only (which the Democrats favor now) this one industry lost 10,454,90 in numbers, 96 cents per average price per head and in total value $60,741,259.

Then McKinley and the Dingley tariff came to the rescue of the flocks and their owners, and in 1905, there are 54,631,000 sheep in the country, of the average price per head of $3.58, and of a total value of $2,736,000. In other words, a great industry that was being crushed to death by Democratic free trade, has been revived and made strong and prosperous under Republican protection, gaining over 45 per cent in number in ten years, nearly 129 per cent in the average price per head, and the enormous total sum of $145,568,265, or at the rate of over fourteen and one-half millions per year gained to the people engaged in this one industry.

That is a great showing for protection.

Sensible Remarks.

The Christian Register, the able organ of the people who profess the Unitarian faith in this country, indulges in the following sensible remarks concerning the religious opinions of political candidates: "Unitarians in America have never acquired the habit of voting for a candidate because he was a Unitarian, or of voting against a man because he was a Roman Catholic or a Methodist. But, if they were inclined to carry their denominational interests into politics, they would be restrained by the saving race of common sense. They remember the sad fate of Mr. Burchard, the honest gentleman who by the alliteration of the three R's, rum, Romanism and rebellion, was charged with defeating Mr. Blaine, the candidate whom he supported. Any public man who in his private capacity is a loyal Unitarian has the right to let his denominational preferences drop out of sight when he becomes a candidate for office; and he is neither a consistent Unitarian nor a wise supporter of such a candidate who challenges the vast majority who are not lovers of Unitarianism "to make it an issue at the polls." All of which seems a rather pertinent deliverance.

JIMMIE'S BEAUTIFUL DREAM.

When Jimmie's turn had come to bat
He heard a mighty shout.
The bases were all nicely filled,
And not a man was out.

Jim gave the plate a sounding whack
And caught the pitcher's eye.
The pitcher turned all sorts of shapes,
Then let the spit ball fly.

Jim swung the bat with giant force
And hit the ball just right.
You should have seen it split the air
And disappear from sight.

Then Jimmie started for his run—
He flew just like a bird—
But when he tumbled out of bed
He hadn't got to third.

—Yonkers Statesman.

Belief Stronger Than Ever.

Motorist—By Jove, I always did believe in wireless telegraphy! Now I'm strong for it.—Meggendorfer Blatter.

Dictionary of Misinformation.

Aviator—An aeronaut before he drops on something hard.

Cheese—Hard hearted milk.

Dumb Waiter—An automatic waiter.

Deaf Waiter—One who hasn't been tipped.

Icicle—A twenty cent piece of ice.

Icicles—Words exchanged between Parsons and Hughes.

Milk—A white liquid usually found on your doorstep by some one up earlier than you.

Milk Punch—A drink the cow would never recognize.—Wex Jones in New York American.

Not a Flier.

"What bird is it," asked the school inspector, "that is found in Africa and, although it has wings, cannot fly?"

The class was unable to answer this very puzzling question. Thinking to encourage them, the inspector offered a sixpence to the little boy or girl who could tell him. After a brief hesitation a little girl of five years put up her hand.

"Well, my little dear," said the inspector, "what is it?"

"Please, sir, a dead un."—London Fun.

Everything points to the Monongahela and Carroll township street railway company extending a line up the Pigeon creek valley soon and citizens of the region through which it will pass are exceedingly hopeful of the project being rushed to completion.

Last winter a franchise was granted by the Monongahela council for the company to place lines over the Monongahela streets. This work was to have been started within six months and was to have been completed within two years. A bond of $5,000 was filed by the concern. Today is the day set for the work to be started according to the terms of the franchise. Yesterday a letter was received from the president of the company, George M. Hosack, stating that work had been started by surveyors having made a plan of the system through Monongahela and that material for beginning active operations would be shipped to this town immediately.

It is the belief that the company means business and will within the prescribed time have a street car service up the busy Pigeon Creek valley.

A Story of Blackie.

Professor Blackie of Edinburgh, a martinet in the class room, was one day hearing a class with the individuals of which he was not acquainted. Presently a student rose to read a paragraph, his book held in his right hand.

"Sir," cried the professor in his autocratic way, "hold your book in your left hand!"

The student was about to speak, but the professor stopped him with a peremptory command:

"No words, sir; your left hand, I say!"

Then the student held up his left arm, which ended at the wrist.

"Sir," said he, "I hae me left hand."

Before the professor could speak there came a perfect storm of hisses from the class, and when he did speak the hisses drowned what he said. Then he left his place and went down to the student whose feelings he had unintentionally hurt, threw his arm around him and drew him close.

"My boy," said the professor, speaking softly, yet being heard by every one in the room, "you'll forgive me that I was overwrought. I did not know! I did not know!"

Then he turned to the students, and, with a look and a tone that came straight from the heart, he said:

"I am glad to be shown that I am teaching a class of gentlemen!"

Dominos.

It has been estimated that two persons playing dominos ten hours a day and making four plays a minute could continue 118,000 years without exhausting all the combinations of the game, the total of which is 215,528,217,856.

Examine the Collar.

The horse collar which rubs up a lap of flesh at every stride of the animal will soon wear a gall on its neck. So will a very dirty collar in warm weather.

Four Greeks Are Arrested For Conspiracy

Four Greeks of Monessen were arrested this morning on charges of conspiracy preferred by an Allegheny county detective before Justice James A. Watkins of that place. They are now in the lockup awaiting a hearing on Monday. The names of the men are George Kerakis, Joseph Sarantinas, Strapis Misarlides, George Velakas. The conspiracy charge grows out of the starting of a confectionary store in Monessen.

NEW PHYSICAL DIRECTOR FOR TURNERS

Wm. Fechter of Roscoe has been [illegible] ers at the Charleroi Turn Verein to take the place of Otto Kable, who has resigned, leaving Wednesday for Indianapolis, where he will enter the seminary there to become a professional physical trainer.

Washington, Sept. 19.—Upon the petition of the Williams, Proctor and Potts company, who are constructing the sewage disposal plant at Arden, and 25 citizens of South Strabane and Chartiers townships, the court yesterday appointed Samuel Abbott as a deputy constable.

J. D. Barrington and William Gault were Pittsburg last evening in Pittsburg.

William McDermott, Mr. and Mrs. Thomas McDermott and John McDermott left today in their touring car for Youngstown, Ohio, to visit a few days.

Troubles of a Constable.

The Charleroi constable came down here Wednesday to serve an execution and make a levy to satisfy a judgment at the home of John Torson. The levy was made on a sewing machine, but when the officer went to remove the machine he had a round with Mrs. Torson. The woman came out second best and lost a few square inches of cuticle from her right shin. She afterwards exhibited the wound in the office of a local justice and wanted to get a warrant for the arrest of the officer.—Donora American.

Supervisor of Music, Charleroi Public Schools

Has opened his studio at his residence, 241 Meadow Avenue, and will receive pupils in Violin, Piano and Orchestral Instruments.

Making More Than a Living

Nearly every man who works steadily makes more than a living. During these slow times the men who have saved something appreciate what it is to have something laid away for a rainy day. A few cents a day soon counts up, and when savings are placed in a bank at a tidy interest the sum soon grows to proportions that make it a safeguard against want when work is not plentiful. Figure up how much more than a living you are making now, and place the difference in this bank. Four per cent. interest paid in savings department.

Methodist.

Usual services Sunday. Sunday school 9:45. Morning worship at 11 o'clock. Evening services at 7:45 o'clock.

There will be Orchestral music at Sabbath school in the morning.

Won't Dye Hair.

The strongest complaint in the divorce courts noted by us ever before, says the Clearfield Spirit, is that of a Punxsutawney woman who wants to leave her husband because he won't dye his red hair the color of the furniture. She should have large alimony gratefully paid by the husband of such a wife. Some men have no artistic tendencies. This reminds one of the Clearfield young ladies who dye their hair to suit the new suit, still having three or four colors of hair in a year, eh?

PRICK GIVES $10,000 FOR MASONIC TEMPLE

Connellsville, Pa., Sept. 18.—Masons from all parts of Western Pennsylvania assembled here today to attend the formal opening of the new temple of King Solomon lodge No. 346, F. and A. M., one of the finest in the state. Two donations were announced, one of $10,000 from Henry Clay Frick, a former member of King Solomon lodge, and $1,000 from Dr. George W. Newcomer of Connellsville.

John M. Carter of Baltimore, past grand master of Maryland, was the principal speaker this afternoon. John W. McClaren, president of the Connellsville Masonic association, called the meeting to order, and John A. Armstrong was the presiding officer. Others who spoke were: Attorney E. C. Higbee, Connellsville; A. A. Carmack, Brownsville; Dr. J. L. Cochran, Fayette City; M. L. Cole, Cumberland; L. F. Ruth, Connellsville; the Rev. G. C. Shephard, Washington, Pa.; F. M. Richey, Scottdale. Tonight the ladies' auxiliary of the Y. M. C. A. served a banquet for the guests.

The new temple is built of brick and stone and cost $80,000.

Home This Week.

Joseph Soulsby, yardmaster of the Monongahela railroad yard, is expected home today from the Allegheny General hospital. It will be remembered Mr. Soulsby was taken to this institution suffering with grangreen caused from a corn and it was thought amputation of the leg would be necessary. This however was averted, and only the great toe and a piece of diseased bone in the foot was taken off. Mr. Soulsby's friends are glad to learn of his speedy recovery.

The time for burning leaves has come and those who indulge in that sort of thing should be extremely careful at this time and until there are heavy rains. With everything so dry a serious fire might be easily started. A fire once started would be hard to control. Wooden buildings would burn rapidly and a fire would be hard on the water supply. Leaves should be disposed of in some other manner or the fire most carefully watched.—Scottdale Independent.
